

Triple Roll

Roll three dice. Using any operations, try to create the numbers on the board using all three dice. For example, a roll of 3, 2, and 4 could be used to create numbers like:

- 1 $3 + 2 - 4$
- 2 $2 \times 3 - 4$
- 5 $4 - 2 + 3$
- 9 $2 + 4 + 3$
- 10 $3 \times 2 + 4$

1	2	3	4	5
6	7	8	9	10
11	12	13	14	15
16	17	18	19	20
